## UNDERGROUND WARNING TAPE - 'PRINTGUARD'

This tape is protected for its entire life from chemicals that naturally exist under ground. The permanent lamination of a transparent Printguard layer also prevents abrasion. Available in any size, colour or language to your specifications.

- Text Protection - Printguard has an additional layer of polyethylene laminated over the printed message, preserving the text, logo and telephone number against abrasion.
- Excellent chemical resistance.
- Material - High quality linear low density, lead free, virgin grade polyethylene.
- Available as woven material for extra tensile strength.
- Manufactured in accordance with ESI 12-23
- Printguard is suitable for soils that contain a high level of acids and alkalines, that may in time react with the ink of unlaminated warning tapes.

### STANDARD TEXT AVAILABLE

TEXT/COLOURS	SIZE	PART NUMBER	SPECIAL PRODUCTION
CAUTION CAUTION CAUTION ELECTRIC CABLE BELOW	150mm x 0.15mm x 365mtrs	PG010150365	Any Text
